ARIZONA DEPARTMENT OF ADMINISTRATION

OFFICE OF THE DIRECTOR
100 NORTH FIFTEENTH AVENUE • SUITE 302
PHOENIX, ARIZONA 85007
(602) 542-1500

The Honorable Doug Ducey
Governor of Arizona
Executive Tower
1700 West Washington Street
Ninth Floor
Phoenix, Arizona 85007

Reference: FY2022 Annual Report

Dear Governor Ducey,

On behalf of the School Facilities Oversight Board and the Division of School Facilities, I am pleased to transmit to you the School Facilities Oversight Board Annual Report for fiscal year 2022 per A.R.S. § 41-5702.

This report details the successes and challenges of both the School Facilities Oversight Board and the Division of School Facilities programs during the course of fiscal year 2022. Legislative leadership promulgated new statutes which outlined new roles and responsibilities for both the School Facilities Oversight Board (SFOB) and the Division of School Facilities (Division). The SFOB has refined their important role of overseeing all New School Facilities projects, including purchase of land and onsite improvements. While the Division of School Facilities assumed responsibility for all other programs related to school facilities including the Building Renewal Grant, Adjacent Ways, and policy development. As a result, response time to address district concerns was shortened in FY22 because awards became immediate rather than monthly occurrences. Substantially improved funding response time enabled our Division to quickly deliver for our districts when they needed funding for capital expenditures.

Significant expansion of Building Renewal Grant funding was a result of the support from the Governor’s Office and the Arizona Legislature. Arizona’s school districts’ needs have increased over the years due to the aging of facilities. Recognizing the need, the Legislature appropriated \$107.5 million as well as an additional \$93.1 million as a supplemental appropriation for a combined total of \$200.6 million to the Building Renewal Grant fund for the Division to administer and distribute to school districts for the purpose of maintaining the adequacy of existing school facilities on behalf of our phenomenal Arizona students.

Prioritized relationships with school district leadership across the state helped guide program goals. We entered into a partnership with The Arizona Department of Environmental Quality (ADEQ) to conduct a broad stakeholder listening session in March 2022. The listening session rated Voice of Customer opinions to lay the foundation for Building Renewal Grant Process Improvement Action Plan. Voice of Customer feedback identified 32 opportunities for Building Renewal Application Process Improvement Action. Using the Arizona Management System (AMS) best practices and resources, ADOA, Division and ADEQ staff began working to resolve identified issues in an effort to streamline and ensure a transparent application process for our customers.

The collective voice of our customers was loud and clear about the need for ongoing training. Districts communicated eagerness to learn more about the Building Renewal Grant process and gain mastery required to complete successful BRG applications and projects, improving access to timely building renewal support. The Division responded by developing and launching the first annual training session schedule.

In summary, new laws, new roles, increased funding, and reduced response times are all wins for Arizona school districts. New initiatives for process improvement, and ongoing training can be attributed to increased partnership with our customers.

Much of this improvement came from the hard work of our staff, but also from the support we have received from the Department of Administration and the Governor’s Office. I want to thank the School Facilities Oversight Board, Department of Administration staff, the Governor’s Office, and our school district customers, for your support and hard work over the past year.

Thank you,

Andy Tobin
Director

STUDENTS FIRST

In 1994, Arizona’s system of school capital finance was declared unconstitutional because it failed to conform to the State constitution’s “general and uniform” clause. That system relied on the secondary property tax, driven by the property wealth of a school district, and general obligation bonding. In 1996, the Arizona Superior Court imposed on the State a deadline to develop a constitutional system of school capital finance or risk closure of K-12 public schools. As a result, Governor Jane Dee Hull signed legislation that dramatically reformed the way K-12 schools are constructed in Arizona. This ended the four-year legal and legislative battle and established Arizona as the nation’s school finance reform leader. This legislation/law is known as Students FIRST (Fair and Immediate Resources for Students Today).

NEW SCHOOL FACILITIES

Students FIRST established a New School Facilities Fund for the purpose of constructing new schools to meet the state’s minimum adequacy guidelines. The Board distributes New School Facilities (NSF) Fund monies to districts for building new school facilities, including acquiring land, or adding space to existing facilities to accommodate student enrollment growth. The NSF Fund consists of State General Fund appropriations. Eligible districts receive NSF Fund monies. The criteria to determine school district eligibility for new school facilities funding are based on an annual evaluation and approval of school district enrollment projections and the additional square footage that will be needed to maintain adequacy standards in a school district.

BUILDING RENEWAL GRANTS

The Building Renewal Grant Fund was established for the purpose of maintaining the adequacy of existing school facilities. The Division administers the BRG Fund to fund renovation and repair projects for existing school facilities to help ensure these facilities comply with the minimum adequacy guidelines. This fund is supported by State General Fund appropriations. A.R.S. §41-5731 outlines the eligibility requirements for BRG funding. School districts may apply for these monies to fund primary building renewal projects including major renovations and repairs of a building, upgrades to building systems that will maintain or extend the useful life of a building, and for infrastructure costs.

EMERGENCY DEFICIENCIES CORRECTIONS

The Emergency Deficiencies Corrections Program is an application-based funding program wherein school districts may apply to Division for funds to correct facility deficiencies that threaten the functioning of the school district, the preservation or protection of property or public health, welfare or safety. The cost of the correction must also exceed the school district’s current year budget.

DIVISION OF SCHOOL FACILITIES (DSF) & SCHOOL FACILITIES OVERSIGHT BOARD (SFOB)

On September 29, 2021 the Division of School Facilities (DSF) and School Facilities Oversight Board (SFOB) were statutorily established within the Arizona Department of Administration. The Division of School Facilities (DSF, or “Division”) administers state funded school facilities grant programs to address New School Facilities (NSF) and Building Renewal Grant (BRG) needs for Arizona district schools. Other responsibilities of the Division include completion of 5 year assessments of Arizona district schools and maintaining a statewide school building inventory. A nearly expended Emergency Deficiencies Correction (EDC) fund is also administered. The SFOB provides direction to the Division for activities involving New School Facilities and Reduction of Square footage.

ANNUAL REPORT REQUIREMENTS

The Annual Report requirements are prescribed in A.R.S. §41-5702.

A. The division shall:

- 6.) *Submit electronically an annual report on or before December 15 to the speaker of the house of representatives, the president of the senate, the superintendent of public instruction, the secretary of state and the governor that includes the following information:*
 - (a) *A detailed description of the amount of monies distributed by the division under this chapter in the previous fiscal year.*
 - (b) *A list of each capital project that received monies from the division under this chapter during the previous fiscal year, a brief description of each project that was funded and a summary of the division’s reasons for distributing monies for the project.*
 - (c) *A summary of the findings and conclusions of the building maintenance inspections conducted pursuant to this article during the previous fiscal year.*
 - (d) *A summary of the findings of common design elements and characteristics of the highest performing schools and the lowest performing schools based on academic productivity, including the results of the parent quality rating survey. For the purposes of this subdivision, “academic productivity” means academic year advancement per calendar year as measured with student-level data using the statewide nationally standardized norm-referenced achievement test.*

C. The school facilities oversight board shall:

- 4.) *On or before December 15 of each year electronically submit a report to the speaker of the house of representatives, the president of the senate, the superintendent of public instruction, the secretary of state and the governor that includes the following information:*
 - (a) *A detailed description of the amount of monies the board distributed under this chapter in the previous fiscal year.*
 - (b) *A list of each capital project that received monies from the board under this chapter during the previous fiscal year, a brief description of each project that was funded and a summary of the board’s reasons for distributing monies for the project.*
 - (c) *A summary of the finding*

Overview

This report details the Division's and the School Facilities Oversight Board's efforts in executing their legislatively assigned duties in serving 217 school districts throughout the State of Arizona.

NEW SCHOOL FACILITIES

The School Facilities Oversight Board awards New School Facilities funding and the Division administers the funds for school districts that do not have sufficient academic space to educate their students. Sufficient space is determined by comparing school district capacity to ADM (average daily membership) projections. In order to make the most accurate projections, the SFOB closely monitors changes in the broader social, economic, and housing environment, and collects data from the following sources:

- Historical ADM data for each school district
- Demographic, social, and economic profiles on each school district from the U.S. Census and American Community Surveys
- Residential housing completion data from Maricopa, Pinal and Pima Counties and other local government sources
- Housing sales data from online real estate reports and database sites;
- Birth data for all of Arizona
- Charter school enrollment data
- Population, housing, and employment projections

FY 2022 NEW CONSTRUCTION

During FY 2022, the SFOB awarded additional space to 5 school districts. These Board awards are summarized in the table below:

DISTRICT	PROJECT NUMBER	PROJECT TYPE	GRADE LEVEL	STUDENT CAPACITY	SQUARE FEET	FORMULA FUNDING (1)
Kirkland ESD	001	New School	K-8	TBD (2)	TBD (2)	\$3,000,000
Marana USD	012	New School	9-12	532	50,000	\$17,610,00
Nadaburg USD	007	New School	9-12	558	67,000	\$23,597,400
Pima USD	003	New School	9-12	502	60,300	\$2,286,230
Yuma UHSD	005	New School	9-12	1,064	100,000	\$33,030,400
						\$99,537,343

(1) Based on funding formula which was increased per Laws 2021, Fifty-fifth Legislature, First Regular Session, Chapter 404 (HB2898), Section 70. Does not include land costs.

(2) The Legislature appropriated \$3,000,000 to demolish and replace square footage at the existing Kirkland Elementary School, which has experienced severe flooding issues. Student capacity and square footage will be determined during the design phase.

A complete demographic review of the FY 2022 capital plan cycle is found on the SFOB website or by clicking the link below.

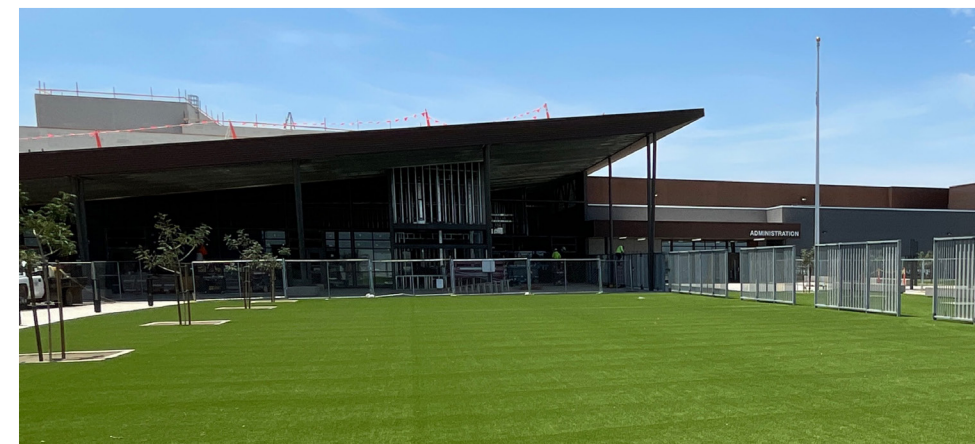

[VIEW THE FY 2022 DEMOGRAPHIC REPORT](#)

NEW CONSTRUCTION COMPLETED IN FY 2022

Tanque Verde Unified High School and Middle School was substantially completed in June 2022, featuring the new student cafeteria. Tanque Verde Unified added additional space to four existing schools to accommodate 390 additional students.

Queen Creek Unified Crismon High School new campus was nearing completion in June 2022. Crismon High School was built to accommodate a capacity of 1,281 students.

INCREASE IN THE CONSTRUCTION COST INDEX FOR NEW CONSTRUCTION IN FY 2022

A.R.S §41-5741.D.3(c) states in part

“... The cost per square foot shall be adjusted annually for construction market considerations based on an index identified or developed by the Joint Legislative Budget Committee as necessary but no less than once each year.”

During FY 2022, the cost per square foot was increased twice, by a combined total of 66.63%. The table below shows the breakdown by grade configuration. These updated amounts went into effect on December 14, 2021.

Indexing of School Construction Costs for All Grade Levels

GRADE LEVEL	OLD URBAN (9/29/2021)	OLD RURAL (9/29/2021)	NEW URBAN (12/14/2021)	NEW RURAL (12/14/2021)
K-6	\$270.24	283.76	\$288.16	\$302.57
7-8	\$285.30	299.57	\$304.22	\$319.43
9-12	\$330.30	346.82	\$352.20	\$369.81
K-8	273.81	287.50	\$291.96	\$306.56
6-8	280.24	294.26	\$298.82	\$313.76
5-8	277.73	291.62	\$296.14	\$310.95
4-8	276.24	290.05	\$294.55	\$309.28
7-9	300.29	315.30	\$320.20	\$336.21
K-12	291.87	306.46	\$311.22	\$326.78
7-12	315.31	331.07	\$336.22	\$353.03
6-12	308.85	324.29	\$329.33	\$345.80
5-12	304.05	319.25	\$324.21	\$340.42

ADJACENT WAYS

The Division is tasked with the review and validation of all Adjacent Ways projects exceeding \$50,000 for compliance with and appropriate use of Adjacent Ways funding (A.R.S. 41-5702). In FY 2022, the Division validated 42 requests for 22 School Districts, totaling \$23,913,916.

Expenditures for improvements outside the property lines of the school site, but required to serve the school facilities, can be funded with Adjacent Ways which allows a School District to request the County having jurisdiction to levy a tax on property owners to pay these costs. This funding is for off-site items such as utility access, traffic lights and signage, streets, deceleration and turn lanes, and sidewalks to the property line so the school is afforded connection to this infrastructure.

The Statute allows for limited use of on-site Adjacent Ways expenditures for the safe ingress and egress of buses and emergency vehicles. The SFOB Adjacent Ways Policy clarifies that this includes the bus student drop-off lane/loop and the fire lane/loop inclusive of curbs, signage, and pedestrian crosswalk striping.

The [SFB YouTube channel](#) provides a short tutorial video that explains appropriate uses of Adjacent Ways funding and how to submit a validation request.

BUILDING RENEWAL GRANT PROGRAM

In FY 2022, the Legislature appropriated \$107.5M and also an additional \$93.1M as a supplemental appropriation for a combined total of \$200.6M to the Building Renewal Grant fund for the School Facilities Board to administer and distribute to school districts for the purpose of maintaining the adequacy of existing school facilities. School districts may request Building Renewal Grant funding for primary building renewal projects which the Division of School Facilities does prioritize based on school district routine preventative maintenance. In FY 2022, the Division of School Facilities approved 910 Building Renewal Grant projects. A breakdown of these projects is shown in the table below.

Breakdown of FY 2022 Building Renewal Grant Awards*

	NUMBER OF PROJECTS	GRANT FUNDS AWARDED
eCivis Approvals	949	\$108,511,189
eCivis Cancellations	(7)	(\$351,501)
eCivis Projects declined by districts	(14)	(\$82,557)
PayAppinator Approvals	0	\$0
PayAppinator Cancellations	(18)	(\$330,968)
Totals	910	\$107,746,164

*Prior to statutory change the SFB distributed all funds. After September 29, 2021 the Division distributes BRG and EDC funds. The SFOB directs the Division to administer New School Facilities Funds.

COMMON DESIGN ELEMENTS

The Division staff is exploring a process to streamline a more effective solution to summarize findings ensuring standards are met for all children in the State of Arizona. Identifying trends in high-performing schools will continue to improve the educational experience for students as the Division continues to prioritize best practices. Recent best practices have been focused on safety and air quality recommendations as a result of COVID-19.

EMERGENCY DEFICIENCIES CORRECTIONS

In FY 2022, the School Facilities Oversight Board approved two (2) new Emergency Deficiencies Correction projects and cancelled one previously-approved project. These approvals are listed below.

FY 2022 Emergency Deficiencies Correction Awards

DISTRICT	PROJECT #	DESCRIPTION	AWARD (1)
Kirkland USD	002	Demolition	\$248,695
Nadaburg USD	002	Portable building relocation	\$307,111
Tuba City USD	002	Restore power to buildings	(\$125,818) (2)
Total			\$429,988

(1) Award amounts include contingency monies when applicable. Any unused contingency monies revert back to the emergency deficiencies corrections fund when projects are closed out.

(2) Cancellation of a previous year's approval.

Division of School Facilities Successes

Virtual Assessment Pilot Launched

Due to COVID-19 travel restrictions, and because of the agency's need to satisfy unmet statutory requirements, a protocol for conducting virtual assessments and preventive maintenance inspections was created by the Division Operations team. Inspired by public safety best practices at ADEQ, the Division adapted virtual assessments to fit the needs of our customers. The Division:

- Created a virtual toolkit
- Identified potential software/data system for collecting information.
- Developed protocol and test/pilot for implementation.
- Developed training to help districts better understand the process and perform some of these measurements on their own.

Listening Session, Kaizen Event, BRG Process Improvement

The Division entered into a partnership with ADEQ to conduct a broad stakeholder listening session in March 2022. The listening session rated Voice of Customer opinions to lay the foundation for Building Renewal Grant Process Process Improvement Action Plan and training sessions development.

Annual Training Sessions Developed and Launched

The first Annual training session schedule was developed and launched in June 2022. The training schedule was developed in response to customer requests received during our first listening session in March 2022. Districts communicated eagerness to learn more about the BRG process and gain mastery required to complete successful BRG applications and projects.

BRG Application and Process Improvement

Voice of Customer feedback identified 32 opportunities for Building Renewal Application Process Improvement Action. Using the Arizona Management System (AMS) best practices and resources, ADOA, Division and ADEQ staff began working to resolve all identified issues in an effort to streamline and ensure a transparent application process for our customers.

Mutually Beneficial Transfer of Prefabricated Portables Supported by EDC Funds

Nadaburg USD's Mountainside High School houses 9-10th graders with a maximum capacity of 30 students. The high school had 158 students. The high school was in immediate need of space to meet occupancy codes and maintain social distancing as a result of COVID-19.

Glendale Elementary School District had several portables not being used by students and not needed by the district. The district wanted to remove these buildings from the inventory list because they were unoccupied and costly to maintain. Nadaburg was able to accept an IGA contract to receive the portables. However, they lacked capital funds to move and install the units.

The SFOB was able to approve EDC funds and guide the districts through the process.

The result was Nadaburg USD gained two (2) portables to help mitigate capacity needs and Glendale ESD reduced their inventory of portables by the same amount. The initial awarded amount to the Nadaburg District to move and re-assemble the classroom portables was \$75,000. Currently, the budgeted amount for this project is \$307,111.

Glendale ESD was able to save \$120,000 in demolition costs.

Desert Sunrise High School hallway in the Maricopa USD.
